

New Mexico Opportunity Map Webinar

**Tuesday March 30
10am**

Join us for a NM Opportunity Map Webinar!

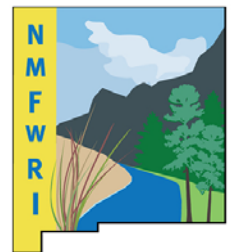

Learn how to use the data available in the New Mexico Vegetation Treatment geodatabase to improve land management planning.

Katie Withnall and Patti Dappen, of the GIS Department at NMFWR I will lead this webinar about the NM Opportunity Map (www.vegetationtreatments.org) and demonstrate how to:

- View vegetation treatment projects across the state of NM
- Create reports and query treatment projects by location or attributes
- Download geospatial data for the projects in an area of interest
- Contribute your data by uploading geospatial files or sketching on the map
